

# MUNSCH & COMPANY AEROMECHANICS

AH-64/UH-60 BPAT Kit in Custom Pelican 1400 Case 100% American Made

## Simplicity of design:

- Four interlocking pieces
- No moving parts

## Durability:

- Alignment shaft is a A2 tool steel hardened to Rockwell RC60
- All other parts are non corrosive stainless steel
- Virtually indestructible

## Ease of operation:

- Requires minimal instruction, adaptation or maintenance
- Minimum Practice, maximum results

THE FIRST CAV IN IRAQ—IN COUNTRY COMBAT PROVEN

## BPAT

US Patent Number 7,114,924

Munsch & Company proudly introduces the **BLADE PIN ALIGNMENT TOOL (BPAT)**. This tool implements a savings to Army Aviation by decreasing blade installation time and by increasing the life of both the blade pins themselves and the bushings around them; by elimination of friction and forced fit of previous methods.

**AGSE PM APPROVED for AH-64 and UH-60.**

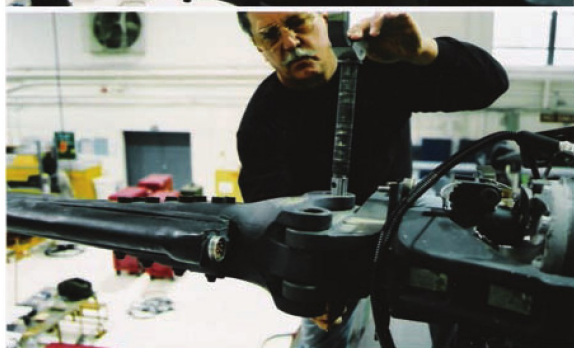

92 BLADES IN A ROW—229TH TECHNICIAN TESTED
